The TDD is set to expire at the end of the month. As you are aware it takes time for the subcontract to get signed and for the drum to be scheduled for transportation to the disposal facility. The sooner we can get the profile signed the sooner we can get the drum disposed.

I did listen to your phone message. Fetzner is the one who has to sign the profile I am guessing and he is now on vacation for about a week I think. Do you need his signature right away?
